Item 2: Educational Background and Business Experience

Name: Jeffrey Michael Camarda

Jeffrey Michael Camarda was born in 1957. Dr. Camarda graduated from State University of New York, with a Bachelor of Science degree. Dr. Camarda has been employed as CEO and an investment adviser representative of Camarda Wealth Advisory Group since June of 1998.

Dr. Camarda holds a Master's of Science in Financial Services and Doctorate in Financial and Retirement Planning granted by the American College of Financial Services in 2014 and 2017, respectively. The American College is accredited by Middle States Commission on Higher Education. It is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Commission on Recognition of Postsecondary Accreditation. Middle States accreditation is an expression of confidence in an institution's mission and goals, performance, and resources. It attests that in the judgment of the Commission on Higher Education, based on the results of an internal institutional self-study and an evaluation by a team of outside observers assigned by the Commission, an institution is guided by well-defined and appropriate goals; that it has established conditions and procedures under which its goals can be realized; that it is accomplishing them substantially; that it is so organized, staffed, and supported that it can be expected to continue to do so; and that it meets the standards of the Middle States Association. The American College has been accredited since 1978.

Dr. Camarda has been a Chartered Financial Analyst (CFA®) since 2000. CFA® designates an international professional certificate that is offered by the CFA Institute. Candidates that pursue the certification have in-depth knowledge of securities types and investment vehicles. In order to qualify for a CFA®, candidates must meet standards for examination, education, experience, and ethics. First, candidates must possess a bachelor's degree from an accredited school, or its equivalent. Second, candidates must have completed 48 months of qualified professional work experience, generally related to evaluating or applying financial, economic, and/or statistical data as part of the investment decision-making process involving securities or similar investment. Third, candidates must pass a series of three six-hour exams that covers ethics, quantitative methods, economics, corporate finance, financial reporting and analysis, security analysis, and portfolio management. Finally, candidates must meet and continue to adhere to a strict Code of Ethics and Standards governing their professional conduct, as reviewed by the CFA Institute.

Dr. Camarda is also an Enrolled Agent ("EA"), an IRS credential authorizing him to represent taxpayers before IRS. Enrolled agent status is the highest credential the IRS awards. Individuals who obtain this elite status must adhere to ethical standards and complete continuing education courses to maintain their status.

Dr. Camarda also serves on the Executive Board for the Northeast Florida Council of the Boy Scouts of America.
